

An aerial photograph of Seefeld, Austria, showing a town nestled in a valley. The town is surrounded by green fields and dense forests. In the background, there are large, rugged mountains with some snow patches. A river is visible on the left side of the image. The text "EDUC 2010" is overlaid in the upper center of the image.

**EDUC 2010**

**4. + 5. March; Seefeld, Austria**

# Something about Seefeld

- Seefeld is located in the hearts of the alps.
- It has very good road connections.
- The airports of Innsbruck/Austria (20km) and Munich/Germany are not too far from Seefeld.
- Last but not least – the railway-station is in the middle of the city, only about 500m far from our hotels.

SKIDUC 2010 will be organized by  
DATA PROJECT GmbH

Date: 4. & 5. of March 2010

Venue: Seefeld (Tirol / Austria)

Several Trainings prior to this  
event

There are lots of snow activities  
after the work

Our hotels in Seefeld are the  
hotel „Wetterstein“  
and  
the hotel „St. Peter“.

- Both hotels are located at the entrance of Seefeld, near the small church „Seekirchl“ or „Church by the sea“. The pedestrian area, the „Olympic- and Congress-Center“ and also of one of the beautiful ski-areas of Seefeld are nearby our hotels.

Here you have a fantastic view of the „Seekirchl“.

Look up to Seefeld from one of the wonderful walkways surrounding the city.

- The “Wetterstein“ was build in 1912.
- It welcomes you with the charme of a one hundred years old bulding, which was completly renovated during the last 2 years.
- There is free parking and internet access around.

All 41 rooms are modern and with top furnish.  
Clear forms and colors create a individual atmosphere  
It's a fine hotel, were are old and new come together in perfect harmony.

The wonderful alp-panorama can also be enjoyed from the large sun terrasse.

The hotel „Wetterstein“ is directly connected with the Sports- and Congress-Centre via a glas channel.  
After the very interesting meeting with many news about VDF and Electos you can relax in a fantastic swim and wellness area.

We would check the snow and found it about 2500m above 0 in the fantastic mountains.

If the confrence should be too expencive for you, you can try your luck in the „Casino“ to earn more money than you spend.

It could be very romantically to make a tour by sleigh through the snowy winter forest.

After the conference we want to put on our snowshoes to walk through the snowy winter landscape.

You can also rent ski or snowboard for nice tours or make a ski school course.

All of you – beginner and professional sportspeople - will feel good on the award-winning cross-country trails.

**See you in Seefeld**

**4. + 5. March 2010**
